

Secretary for Half a Century.
The annual meeting of the Historical Society of the Universalist denomination was held before the opening of the regular Universalist Convention at the Church of the Divine Paternity this morning. The Secretary, Dr. Sawyer, of Tufts College, read his annual report. The following officers were elected for the ensuing year: President, the Rev. Richard Eddy; Vice-President, the Rev. V. E. Tomlinson and Edward Potter. After the election, President Eddy called attention to the fact that Dr. Sawyer had now served as Secretary of the Society for fifty-one years. A vote of thanks was tendered to Dr. Sawyer.

Longford's Victim Wore.
Young John Barrett, who was shot by the Italian Longford, and who has been hovering between life and death in the Chambers Street Hospital, has grown decidedly worse since Monday, but little hope is entertained for his recovery. No visitors except his mother are allowed near him and she scarcely ever leaves him.

The Guard Against Cholera.
Health Officer Smith paid a visit this morning to Hoffman and Swinburne Islands, and to the detained steamship Britannia. All the quarantined people were found in good health. Dr. Smith reported that all the Britannia's passengers were also in good health and that the vessel was being thoroughly disinfected.

Isaac Bell, Jr., Entertained.
(Special to this Evening World.)
Newman, R. L., Oct. 19.—Isaac Bell, Jr., United States Minister to the Netherlands, was entertained at luncheon yesterday by Capt. John Waters, of the Life-Saving Bureau.

STEPHEN W. DORSEY.

A Vivid Chapter from His Experience and the Valuable Lesson It Contains—A Few Timely Suggestions.

The coming political campaign is already an exciting one. For many are serving for the occasion and all the political skill, foresight and energy are being shown. One of the ablest managers is Senator Stephen W. Dorsey. Those who are acquainted with the Senator realize what a remarkable man he is, and that as Secretary of the National Republican Committee during the Garfield campaign and as manager of the immense iron trusts he now has on hand his abilities have never failed him. But, unfortunately, his physical system gave way a few years ago and he became a victim to the worst trouble which ever comes to man or woman. For many years he suffered more than Senator Dorsey, and yet he is to-day in the finest possible condition. This is what he says on the subject:

"Dr. Elias and Johnson, of Washington, directed me a few years ago to use Bethesda Water for my nervous and bladder difficulties, and its effect was marvellous. I consider the water of the Bethesda Spring the best in the world for kidney and bladder troubles, and I have recommended it to many persons since my recovery. For all such diseases as I have named it is worth more than all the prescriptions and all the drugs."

But Senator Dorsey's experience in the use of Bethesda is not a military one. Every leading physician in America orders its use when patients are attacked by kidney ailments. Dr. Elias knew its great value and administered it to President Garfield during that summer when the life of the Executive hung by a thread. He has since used it for his own family, and it is regularly used invariably improves. Inasmuch as all reputable doctors handle Bethesda, and as it is becoming so popular, it is not surprising that a marked decrease in kidney and bladder complaints has been noted by the various Boards of Health, and the proportion of delicate mothers and young children in any community is invariably lessened where Bethesda is used and constantly used. Such is Bethesda's remedy, pure, reliable and yet powerful; a godsend to Senator Dorsey, a boon to physicians and a blessing to all who use it.
